and as address by the Superintendent, consisted of an invocation by the pastor, with responsive utterances by the congregation. Singing, prayer and addresses by Rev. F. H. Huchcock, Quentin McAdam and Rev. Almon Gunnison closed the morning service. During the afternoon addresses were delivered by Mr. B. Peters, Rev. H. R. Nye, Rev. R. H. Pullman, Rev. A. B. Hervey and A. P. Putnam, while in the evening the pastor, Rev. Almon Gunnison, preached a short sermon

BLESSING OF A CORNER STONE.

THE NEW CHURCH OF ST. AGNES-EIGHT THOUS AND PROPLE AT PRAYER-AN IMPOSING

Yesterday afternoon the beautiful ceremony of bless ing a corner stone was performed at the new Catholic Church of St. Agnes by the Right Rev. Bishop Loughlin, D.D., assisted by Fathers Donnelly and Poole. The site of the new church is on the north side of East Forty-third street, between Lexington and Third avenues. The plot is 100 feet square, and the church will be built up the shape of the plot. be built in the shape of the piot, which it will almost cover, so that when more property is acquired wings can be added and the edifice will assume the form of a ss. The rear and a part of the side walls have been sed to the full beight, under the direction of the comitable workers of the parish of St. Agues, the

Rev. Father H. C. Macdowall, pastor.

At half-past four P. M. the piatterm covering what will be the floor of the church was densely crowded with ladies and their escorts. The space where the altar will be was marked by a black cross entwined with white cloth. Reaching far on each side and a hundred feet above the cross were festooned flags of America, Rome, Ireland and France. Far as the eye could reach the housetops and avenues were black with the forms of speciators. At the appointed time music signalled the approach of a procession that marched from the street up the central sisle of the platform. First came a cross bearer, followed marched from the street up the central size of the platform. First came a cross bearer, followed by acolytes bearing lighted candies, then the sodality of St. Aloysius; boys bearing flowers; the Sodality of St. Aloysius; boys bearing flowers; the Sodality of St. Agnes; girls dressed in white, wearing white veals, beneath which were seen crimson ribbons suspending the medula of the Order; the zirls of the Sodality of the Sacred Heart; the second Sodality of St. Agnes; the Children of St. Michael Arch, with an eiggant banner; the Sodality of the Children of Mary of St. Annes, dressed in white and wearing snowy veals, all under the direction of Mr. A. E. Lahues. After them came the members of the clergy, clad in black, over which were white soutanes. They were followed by two Dominican monks with white mannies, and a Dominican noulk wearing the brown dress of his Order. These were followed by acolytes. As the procession flowly marched to the sitar space solemn music was given by the band and every head in the vast corprepation was uncovered. The Right Rev. Bishop Loughins, D. D., advanaced to the centre of the altar space and the music censes. He then solemnly bessed the cross marking the location of the altar and turning to the corner stone of the church, which rested on a table near by, he deposited therein a box containing the Manual of the State and City of New York, copies of the HEALD and other morning newspapers, the names of the Caucht of the Church of St. Agnes. coins of the United States, &c. The usual prayers and pealms of the Church of St. Agnes. coins of the United States, &c. The usual prayers and pealms of the Church of St. Agnes. coins of the Right Rev. Bishop and his assatiants. Sishop Loughlin reached the position of the stone, in grand march, the procession was creamed. Four young men bore the corner stone to its appropriate since, the column opening to permit their passage and heat of the Right Rev. Bishop and his assatiants. Sishop Loughlin reached the centre is not the speakers and the carefu

St. Agnes.

Among those present were Fathers Young Pratt, Donnelly, Poole, Theirry, Macdowall, Clowry, McCarty, Plynn, Brady and McKeogh; Fathers Singer and Lilly, of the Dominican Order; Father Bonaventura, of the Benedictine church at Hoboken; Father Riordon, Dr. McGlynn, Father Healy, Messrs. McKlroy, Von Sachs, Dillon, Farrell, Fitspatrick, the architect of the church; L. J. O'Connor, Mr. Newman, Mr. Moran, Mr. Armitrong, Mr. Brown, Mr. Valentine and Mr. R. J. Draddy.

A GREAT RELIGIOUS WORK. THE NEWSBOYS AND BOOTBLACKS OF JERSEY

CITY BROUGHT INTO THE CHURCH. The ceremony of administering the sacrament of confirmation in the Catholic Church is always a solemn and imposing one, but the spectacle witnessed in St. Peter's church, in charge of the Jesuit Fathers at Fersey City, yesterday, was one that will not soon be cotten. At three o'clock in the afternoon Bishop rigan, attended by Fathers McQuade and Marechal, ored the sanctuary, ascended the altar delivered a most impressive discourse to large number of candidates for confirmaand delivered a most impressive discourse to the large number of candidates for confirmation that filled the aisles. He dwelt upon the deep jignificance of the ceremony which was to remind them that they had enisted as solders of Christ and his the scarament would give them new strength to aght under the banner of the cross. He also exhorten them carnestly to adhere steadfastly to their fasth and never depart from the teachings of the Church. The ceremony then proceeded and occupied about two hours, after which there was a benediction of the blessed sagrament. There were two characteristic features in the assembling—first, the confirmation of isoven converts, the last being one of the leading physimans of the city, who had been a member of the Church of England; and second, the large number of newsboys and bootblacks, classes hitherto neglected and permitted to wander like stray shoep through like. Father Maréchal has devoted several hours each week dhring the past six months to the reformation of these youths. He picked them up at the ierries, steamship whares and at the street corners, and set apart a convenient time for their instruction. With him it became a labor of love, and the result of his scalous work was witnessed yesterday and was most editying. The little iellows were encouraged to leel that they had a great destiny before them, and they advanced to the altar with a regularity and decorum that evoked a high compliment from Isahop Corrigan. Father Maréchal also devoted several hours each week to the lostruction of pupils who attend the public schools and those attending public schools, as well as those who attend no school at all, have been levelled and a lotter spirit prevails.

POTATO BUGS ON LONG ISLAND.

From every part of Long Island comes news of the From every part of Long Island comes news of the ravages of the potato bugs. Last year many of the farmers had such bad luck with their potato crops in consequence of the operations of these peaks that this year they determined to plant less ground. In Queens county, especially, there has probably not been a smaller area of potatoos planted during the last twenty years thus at present, and a much less area has also been planted in Suffolk county. As a result, these farmers who succeed in getting a comparatively good. farmers who succeed in getting a comparatively good erop will probably obtain good prices. Some of the reports from various localities may thus be noted:— Several larmers near Amityvillo have acres of young potatoes caten of even with the ground, and should the bugs continue to increase as rapidly as they did last year it will be almost impossible to raise any vogetables for which they have an appetite, for they do not confine themselves to potatoes alone. At Huntington their ravages are extensive, and they are destroying tomato as well as potato vines. At Kosiyn the bugs are making sad havoe, and the prospect for potato crops is very descouraging. At Newtown they are to be found in almost every field and garden, and so in Jamaica, where several fields of posatoes have been ploughed up and other crops put in, and they have been particularly destructive to tomato plabis, egg plants, &c. All along the South side the bugs are to be found in great quantities, thousands upon thousands of them infesting the potato fields, and great numbers are to be seen upon the beaches at Rockaway and elsewhere, where they perist in the surfi and are thrown up in rows. Among other things green, powdered aloes, soot, &c.; but some of the armers say that the most effective as well as the safest agent used in the attempt to exterminate them are l'aris green, powdered aloes, soot, &c.; but some of the armers say that the most effective as well as the safest agent used is stacked lime, which may be sp inkled apon and around the plants without injury to them and without danger to the person using it. potatoes eaten off even with the ground, and should

The bodies of two male infants were found in a swamp on the property of John Condon, at Amityville, L. I., on Friday afternoon, by a colored boy named Ferman, residing in a house in the immediate vicinity. They both bore evidences of strangulation, one appearing to have been about a month in the water and the other a much shorter time. Two young women of the neighborhood, who are known to have been pregnant and who have recently disappeared, are suspected of being the mothers of the infants, and a right investigation of the affair is being prosecuted by the Coroner. Considerable excitement prevails in the neighborhood.

FINANCIAL AND COMMERCIAL

The Events of the Week-Course of the Stock Market.

THE MONEY AND GOLD MARKETS.

War Rumors and Their Disquieting Effect-Railway and Lake Competition-The Dry Goods Trade.

SUNDAY, May 28, 1870. I Pope, singing of Dryden, eulogizes his Long majestic march and energy divine.

Certainly the same royal progress and indomitable pluck will be conceded to the veteran Commodore by some future poet of the stock market. The word today is that Mr. Vanderbilt is hopelessly ill, and that a few hours may close his earthly career; yet despite this the Central and Hudson River Railroad (his pet investment) has to-day publicly advertised a reduction of nearly 33 1-3 per cent on all passenger rates to the great Western cities. By all who know the man, his irrepressible energy and force of character, it will not be doubted that this change has been made with his concurrence, if not at his direction. It is of such stuff that heroes are made, though we may regret that the "ruling passion strong in death" could not have been devoted to more ennobling pursuits than the simple ac-

The Broker lamily, however, is not given to sentimentality, and say no long prayers over any of their guild if an honest penny can be made by curtailing the services. So, with the news of the new "cutting under" process, so long threatened but now estab-hished, and with the belief that the octogenarian was nearly "gone to his death," there was a gathering of speculators at the Fifth Avenue Hotel this morning. hovering over the expected demise as do vultures over the form of a sick lion. Beak and claws were sharper than ever, and, though little was effected in the way of transactions, Lake Shore was offered at 51%, and a disposition prevanted to sell down the rest of the market. Like the usurer's plough, brokers will work on Sunday, perhaps arguing that "better the day makes better the deed," or more likely satisfied to claim such profits as may result, without troubling themselves with the theological question at all.

While events of the past week have been controlled

to a great extent by doctors' prescriptions, and thus smell of the pharmacogoia rather than of mance, there bigs fair to appear in the week to come a new element of disturbance in the perturbation which the warlike state of things is likely to create in foreign markets. Mon bers of the Stock Exchange will not object to the development of any forces, be they beneficial or calamitous, that will wake up the existing slumbering trade, and are prepared to greet reseate prosperity or blue ruin with equal complacency.

The following represents the opening, highest and lowest sales, regular way, of the principal stocks during the past week, together with the number of

The course of money has been toward even lower rates, and capitalists and banking institutions having large amounts of funds to employ begin to be apprehensive lest the coming summer months should prove anything but fruitful of even the present small profits. Demand loans have been done at 2% to 3% per cent, with 3 as the more common charge; this on pledge of the usual collateral. To borrowers on United States bonds the ruling rates were 2½ to 3. The rates for commercial paper are toward easier terms, because of the small amount of names now being written. The late stoppage of mills in the New England States and the recent wool failures have caused more than usual

This change is due to the disturbed feeling in London and Fronch commercial circles, resulting from war rumors, the decline in consol's and fall in nearly all clauses of securities. The following are the

GOLD PLUCTUATIONS FOR THE WEEK.

These have been well sustained during the week and in some instances prices closed higher. In the great plethora of money which exists there is reason why capital should seek safe investment in this direction, and governments continue to be firm. Another fact favorable to their advance may be found in this, that the United States are not only free from all entangling alliances, but our bonds offer to the people of Europe greater security from loss than those of any other nation in the world. To the people of tils country a European war would in many days prove a blessing-

The foreign commerce of the port for the week was

tottows:-General merchandise imports, including dry goods, \$5,240,422; produce exports, \$5,262,023, and specie exports, \$022,140.

The total imports of merchandise since January 1

The total imports of merchandise since January 1 this year were \$133,089,037, against \$152,937,258 for the corresponding period in 1875, and \$178,705,890 in 1874. The total exports of produce were \$06,685,861, against \$95,302,332 in 1875, and \$112,680,892 in 1874. The total exports of specie were \$23,089,418, against \$31,461,087 in 1875, and \$22,738,751 in 1874.

The former have been quiet, with Tennessees stronger and higher in consequence of a reported improvement in the financial aspects of the State. District of Columbia bonds were a fraction lower.

Columbia bonds were a fraction lower.

THE RAILEGAD AND WATER COMPRITION
between the West and the seaboard is attracting considerable attention because of the low rates airfady established for the transportation of east-bound freights. Rates on wheat by lake from Chicago to Buffalo are 2% cents per bushel, and by canal from Buffalo to New York 6% cents. These rates are equal to 75% cents per ton (331-3 bushels) from Chicago to Buffalo and \$2.08% from Buffalo to New York, or, by railroad distances, less than 1% until per ton per mile to Buffalo, and from Buffalo 4% mills. When it is understood that the Central and Hudson admits a cost per ton per mile of over 7 mills for each ton transported it will be seen how unequal the contest is west of Buffalo, and the following

RECEIPTS OF GRAIN AT BUPPALO SINCE MAY 8.

Total...... 6,576,100 Besides this Oswego has received by lake a large quantity. From Ruffalo to New York the railroads do better, because the canal toils do not permit of such extremely low rates, yet to compete with 6340, por bushel the railroads have to accept of 434 mills as the rate per ton per mile. The proportions of the move-ment from Buffalo eastward since the opening of the

A POSSIBLE REDUCTION OF PASSENGER RATES.

It is reported that the New York Central and Hud-It is reported that the New York Central and Hudson River Railroad will reduce their passenger rates at an early day to the following figures:—New York and Chicago (from \$25), \$17; New York and Cincinnati, \$16; New York and Indianapolis, \$16; New York and St. Louis, \$22; New York and Louisville, \$19; New York and Detroit, \$13. The alleged reason for this reduction is that rival lines out of Boston have been running first class express passengers on emigrant tickets, to the detriment of the Boston and Albany travel. The new tickets will be good for three days.

days,
A similar reduction, it is said, has been ordered by
the Pennsylvania Railroad for the same date.

THE DRY GOODS TRADE are taking a less cheerful view than at first regarding the probable effect of the recent auction sales upon trade, and fears are entertained that the "great suc cess" is only to those who have thus succeeded in dis-posing of their accumulated stocks. It is realized that posing of their accumulated stocks. It is realized that the goods have not gone into consumption, but simply been distributed among a large number of traders, who are more likely to still further depress prices through their efforts to quickly dispose of their large purchases than would have been the original owners. The trade iso complain that the auction sale has established nes departure in credit, the terms of the sales having been four months, instead of the usual credit of sixty days for this class of goods, and it finds it impossible to now sell a bill of goods without acceding to the new terms.

MINING INTELLIGENCE. The Judd & Crosby works at Georgetown sent for ward through the First National Bank \$6,523 in silver bars during the week ending 19th inst. The ore coming out of the Broadway Tunnel is reported to be un-usually rich. Work on the Nuckolls mine is steadily rogressing, the main shaft being down 175 feet and the pay streak increasing in value. At the Stevens mine the winter's heavy fall of snow will prevent the forwarding of ore until about June 1. The Silver Piume Concentrating Company is running night and day and turning out some forty tons of material per week. The Pelican mill is reopened with a large sup-ply of ore after a week's delay in the introduction of new machinery. For the time being there is an over supply of water from the mountains, an inconvenience that will probably last another week. The Young was taken in hand by another sot, who are said to hav and rich ere at a slightly lower depth.

The Baxter Company, known in the East as having ent a ton of ore to the Centennial Exhibition, has the ge for the first class 450 ounces to the ton and for the econd 150 ounces to the ton. This result seems to

or No. 5 lode, where the shaft, at a depth of 500 feet, intersects a tunnel, machinery is already in place for sinking 1,000 feet deeper, a work that is expected by its projectors to successfully solve the problem of deep mining in the Territory. The greatest depth so far attained in any Colorado mine is about 1,100 feet, where the ere pays largely and the indications point to a bonanza further down. The Golden Smelting Com-pany, in Jesserson county, are doubling their capacity on account of the increased production of ore in that neighborhood. Milling and mining machinery are in unusual demand, some shipments having been made to already in successful operation.

What is called the "New One-man-power Jigging Ma-

chine" is said to be working successfully on low grade ore in Fremont county. It is pronounced a simple and effective means of concentration, and is exfrom want of capital, may have feared their "jig was up." In Park county the Moose, Dolly Varden, Hiawatha, Russia, Security, Lone Star and London mines are reported as being in paying ore and doing well. A

are reported as being in paying ore and doing well. A blasting furnace is being erected in Horseshoe and Chiorination works, at the mouth of Mosquito Gulch. From Boulder county we learn that Commissioner Decatur, in the interest of the Centennial Exhibition, held a large meeting on Monday night at Sunshine, and is traversing the county generally. A mine near Boulder City, that was sold to St. Louis parties for \$10,000, became worth \$100,000 within eight months, having became worth \$100,000 within eight months, having been worked on a very moderate scale and with simple appliances. A small lot of Tellurite ore, from a new discovery north of Camp Providence, was taken to Denver and sold for \$5.80 per pound. The subject is creating much excitement in the neighborhood. In Gilpin county the activity is unusually marked in the better known districts, such as Russell, Gregory, Quartz Valley, Nevada, &c., and new mills and maquartz valley, Nevada, &c., and new mills and ma-chinery are being erected to work the increased offer-ingsof ore. Emigration is tending toward the less devel-oped portions of the Territory. On the Hubert lode rich findings are expected, attended with excitement as an inevitable sequent. The old mills and concentrating works in the county are in full black. works in the county are in full blast.

RAILROAD REVIVALS.

A great revival is in progress among the Pennsylvania Raifroad mon in Jersey City. Their reading room, which was donated by the raifroad company, has been stocked with religious publications, and prayer meetings are held twice a week. Services were held at four o'clock yesterday atternoon at the freight depot on Warren street. Addresses were delivered by Mr. C. H. Benson, who has achieved a vast amonat of good in the field of evangelical labor, and Rev. J. Fisher, of the Third Presbyterian church. Those services will be continued every Sunday during the summer at the Pennsylvania and Eric aepots alternately. Mr. William Keenan, the converted locomotive engineer of the Delaware and Lackawanna Rairossi, is aunounced to address the railroad employes on Sundays at different stations along the line during Jone and July.

THE PACIFIC MAIL TROUBLE.

BUFUS HATCH'S VIEWS ON THE QUESTION-TWO OF THE NEW DIRECTORS DECLINE TO SERVE-

The recent struggle which resulted in the ousting of Jay Gould from the centrel of Pacific Mail, a consummation effected mainly through the energy of Rufus Hatch, has had unforeseen results. Yesterday it was rumored that two of the leading men who had been named for the reform ticket had declined to serve. To ascertain the truth of the rumer a Hanale reporter alled on Rufus Hatch, but that gentleman declined at first to say anything whatever on the subject of l'acific Mail. He remarked, determinedly, that he did not intend to be interviewed. He that no did not insent to be interviewed. It had made statements frankly to several newspaper representatives and only found misrepresentation. REPORTER—You took a prominent part in the strug-gie by which Mr. Gould was overthrown, and you now

seem to hold the winning cards.

sent of Whitehouse & Co. Exporter.—What truth is there in the report that Messrs. Thurber and Millbank have declined to enter

the new direction?

Mr. Harca—That is true. After I held the balance of power my arrangements with Messrs, Whitehouse & Co. were to the effect that a certain number of gentlemen representing the Panama Railroad Company, entirely outside of Wall street speculation and large stockholders in the Pacific Mail Company, entirely outside of Wall street speculation and large stockholders in the Pacific Mail Company, were to act as directors. The first proposition was that two Panama men be selected, to which I assented; anterward they proposed three of the Panama people, and I gain assented, and a ticket was then agreed on. Trenor W. Park and his associates covered their shorts on Thursday, the Ish inst., when it was known that Gould had been beaten, yet Park goes talking around as if he was the party who defeated Go-ld.

Reforter—I believe you took a strong personal interest in the struggle?

Mr. Harca—I believe you took a strong personal interest in the struggle?

Mr. Harca—The result, as it at present stands, is that the company will be changed from the control of the Union Pacific Railroad to that of the Panama Railroad—whether for better or worse the future must decide.

Reforter—Don't you feel some regret at separating altogether from this association with which you have been so actively connected?

Mr. Harca—No. After three years of service I am quite willing to retire, P. M. has been to me Perfect Misery; the future would seem to indicate Perfect Mystery.

Mr. Harca—Here is Mr. Thurber's letter. He declines to act owing to pressing business engagements. You know he has resigned from the Brook by Bridge Board. Whitehouse & Co. retused to act, as he considered the action of Wintehouse & Co. a broach of the compact on which the ticket had een made up. Mr. Thurber's place, and hearing this Mr. Millbank then declined to act, as he considered the action of Wintehouse & Co. a broach of the compact on which the ticket had een made up. Mr. Thurber was one of the directors orignally proposed by me. He was not transmelled by relations with P

situation.

Mr. Harch—Yes, it's just this: I made the fight and won it. Then Whitehouse & Co. break faith, though it was through me that the proxies were sent to them. Finally Park comes in and claims the glory of victory, though he covered his shorts after Gould's deleat.

FIFTY-SEVENTH STREET COURT. Before Judge Kasmire, SERIOUS BOW IN SNIFFIN COURT.

Snimn court is a small alley on the south side of Thirty-sixth street, between Third and Lexington avenues. It is such an insignificant place that but few of the police even know where it is. It is made up of private stables, the coachmen also living there. On Saturday night a number of these who live in Sniffla court, while drinking in a Third avenue saloon, becourt, while drinking in a Third avenue saleon, became involved in a quarrel with other stablemen, residing in Thirty-fifth street, and the result was that the Sniffin court men got the worst of the affair. Daniel Byrne, who is employed as waiter by Mr. Franklin, agent of the Cunard Steamship Company, was cut so severely in the thigh that ne had to be removed to Believue Hospital. Joseph Johnstone, a friend of Byrne's was pretty severely cut in the hip, but he went home after his wound had been dressed by a surpeon. Officer Kilmartin, of the Twenty-first precinct, heard the cries of the wounded men for assistance, and managed to arrest Samuel Miller, of No. 323 East Thirty-first street, whom Johnstone said had stabbed Byrne got sway. There were lour of the assaining party altogether, but Miller was the only one arrested, and he was committed to await the result of Byrne's injuries.

TO THE ISLAND FOR ONE YEAR.

by a surpeon. Officer Kilmarin, of the Twenty-first precinct, heard the cries of the wounded men for assistance, and managed to arrest Samuel Miller, of No. 232 East Thirty-fifth street, whom Johnstone said had stabbed Byrne got away. There were lour of the assisting party altogether, but Miller was the only one arrested, and he was committed to await the result of Byrne's injuries.

TO THE ISLAND FOR ONE YEAR.

A young man of unprepossessing appearance, calling himself Frederick Kingsley and residing at No. 25 Lewis street, was found in the cellar of No. 598 Second avenue, on Saturday. Officer Murphy, of the Twenty-first precinct, arrested him and found in his possession pawn tickets for a lady's gold watch and chain and other property. Owners of lost property will call at the station house. A set of burgiar's tools was also found upon him. He ass been sent to the jisland for a year on a charge of disorderly conduct.

ASSAULTED HIS MOTHER-IN-LAW WITH A SLUNG-SHOT.

George Frederick Young, of Hunter's Point, was arraigned on the serious charge of striking his mother-in-law, Eliza Escamp, of No. 354 East Thirty-second street, on the forehead with a slungshot. The wound indicted was a severe one, and before the surgeon could inflicted was a severe one, and before the surgeon could close it properly he had to put four stiches in it. The accused was barely twenty years of age, and his wife, who was present as a witness against him in reference to the assault, was younger still. The quarrel had us origin in lamily difficulties, and according to the prisoner's version the mother-in-law was the aggressor. He was held for trial in default of \$1,000. When going down stairs to prison his wife wished to kies him good by, but he scornfully repulsed her attempted caresses.

Patrick Melanghim was found at three o'clock yes.

Patrick McLaughlin was found at three o'clock yesterday morning by Officer Cottrell, Twenty-second pre-cinct, in company with two other men, on the corner of Forty-sixth street and Eighth avonue, and was arrested as a suspicious character. He was taken to the rested as a suspicious character. He was taken to the station house after a desporate struggle, and in his possession were found four file saws about the size of knitting needles, any one of which, it was said, would cut in two an 'ron bur an inch thick. He was held in detault of ball to keep the peace for six months.

The foregoing cases were all disposed of at the morning session, and then a recess was taken till two o'clock P. M., instead of the usual adjournment until Monday morning. This was done because or the anticipated rush of Excise cases that was expected.
